

Rainwater pH and particulate test

Portland Purple Water is conducting a region wide rainwater pH and particulate test and we need your help. Bring us a sample of your collected rainwater, along with the completed information below, and you can help PPW prove the value of rainwater.

Instructions:

- 1) Fill a clean 16oz water bottle from your barrel or cistern. **No soda or juice bottles please.**
- 2) Label with your **last name** and attach the following information.
- 3) Call PPW at 503-922-3583 to arrange for us to pick it up or deliver it to us at an event.

Name: _____ Address: _____

Phone: _____ City: _____ State: _____

Email: _____ Date collected: _____

Catchment system used: Barrel Cistern total capture (in gallons) _____

Roof type:

- Comp/Asphalt
- Metal
- Cement/Tile
- Rubber
- Cedar shake
- Other _____

Filtration system (check all that apply):

- MasterShield gutter protection
- Box filter
- First Flush Diverter
- Roof washer
- None
- Other _____

Remember to use a **clean** 16 oz plastic water bottle and label with your last name in permanent marker. Call PPW at 503-922-3583 for a pick up, or visit us at local events.

Thank you for being part of the solution!
